

NEC's Built-In Property Management System InHotel

Cost-effective solution for hotels providing easier bookings, billings & administration.

NEC's InHotel combines a complete and comprehensive Property Management System (PMS) together with tightly integrated telephone system functionality.

Ideal for hotels of up to 120 rooms, this easy to use platform is designed to increase your staffs' productivity, enhance guest experience and significantly lower your running costs. And as one of NEC's InApps-all the technology is built-in with no cost and maintenance of extra PC servers creating a highly attractive price point in combination with extremely low Total Cost of Ownership (TCO).

InHotel Business Benefits

- **Increase your productivity levels** – Time-saving features for all your staff
- **Enhance customer service levels** – Faster check-ins, check-outs; sharper response times
- **Lower costs** – Single initial cost, no recurring monthly subscriptions
- **On-board application** – No extra PC server hardware or maintenance
- **Always on 24/7** – Browser-based
- **Easy, flexible & faster billing** – Room rates, call costs, mini bar, spa, restaurant & more
- **Complete hotel room management** – Real-time status dashboard

At a Glance

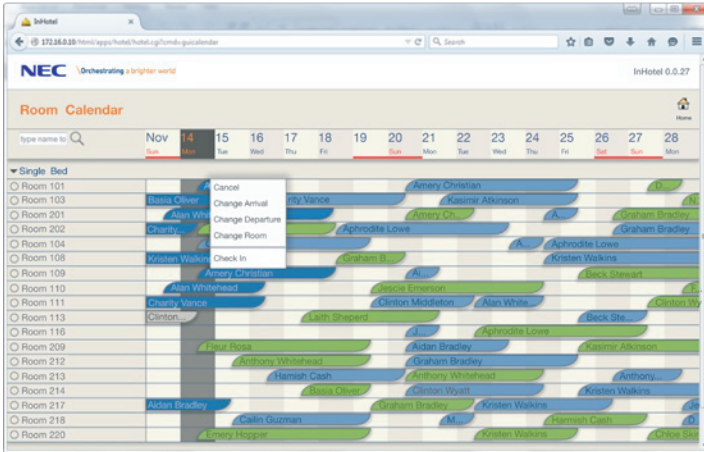

- Complete room booking, billing & hotel administration
- Easy to use interface
- Integrates with communications platform functionality
- Supported on NEC's UNIVERGE SV9100 unified communications (up to 120 rooms) and the SL2100 communications system (up to 64 rooms)

As one of NEC's InApps solutions, features include:

- Built-in/embedded application
- Browser-based and available 24/7
- Extremely cost-effective
- No extra PC / Server required-data is stored on the CPU
- Save on hardware costs and IT maintenance

Complete Property Management System Features:

- **Telephone Billing** – All calls are captured and billed against the guest folio
 - **Flexible Rates** – Custom rates can be configured to allow the hotel to set their own call rates
 - **Multiple Telephones** – Multiple telephones can be grouped into a single room and billed to a single guest stay
 - **Hotelier Control** – The hotelier can set call restrictions (local only/ local & national/ international), block room to room calls and set Do Not Disturb feature from the hotel console
 - **Centralized Wakeup Call Management** – Wakeup calls can be set by the guest or hotelier and managed, modified or cancelled within InHotel
- **Room allocation** – See current and future guests on a color coded calendar view
 - **Jump to Date** – Quick access to any future date
 - **Guest Filter** – Easily find a guest reservation or stay using the filters
 - **Room Management** – See color coded status of all rooms (clean/ dirty/out of order)
 - **Folio Management** – Add charges for services and products to guest folio
 - **Invoice Generation** – Complete invoice generation for room nights, services and telephone calls
 - **Message Service** – Capture messages for guests with automatic room notification
 - **Flexible Room Rates** – Based on calendar dates or days of week
 - **Multiple Connections** – No license for additional connections, folio items can be added by housekeeping or restaurant
 - **Guest Stay Information** – Capture information about the guest, contact details and stay reasons; opportunity to build CRM database of guests
 - **Custom Products & Services** – Can be created and added to guest folio

Supported Browsers

- Chrome, Firefox

Telephone Features

- **Checkin/Checkout Functions** – Automatically control telephone restrictions
- **Guest Name Display** – Guest name is transferred when the guest checks in, displayed on reception phone when a call is received from the room
