

Mobile Voice and Video Extension

## UNIVERGE ST500 Mobile Client

## Smart mobile extension for your smartphone

Take the power of the ST500 with you at work, at home and anywhere in-between while not being tied to your desk.

NEC's UNIVERGE ST500 was developed for Apple iPhone, iPad and Android smart devices lets you leverage native contact lists to make and receive voice and video calls.

Simply connect to Wi-Fi or use your mobile data (3G/4G) to handle your calls.

The ST500 simplifies your operation by one number, merging your call history and work voice mail.

## Application Features

- > Integrated into your smartphone contacts
- > Complete call history (grouped by contact)
- > Hands-free mode
- > Bluetooth headset support
- > Video calling
- > Localized dial plan

## Call Features

- > Make / Answer calls / Call waiting
- > Hold / Transfer / Conference
- > Call park
- > Call pickup
- > Call forward (All, Busy, No Answer)
- > Call hunt groups

## Additional Information

The ST500 is available on your NEC Communications Platform but requires an activation code that you can obtain from your NEC representative. It may also require spare license capacity on your NEC Communications Platform to connect as a standard SIP extension. When ST500 is connected outside of corporate Wi-Fi, a Session Border Controller is required.

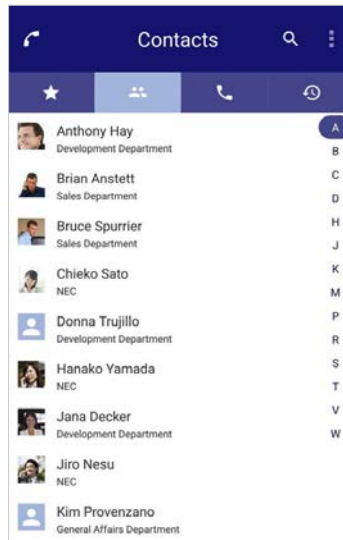

Note: License is required to activate on Communications Platform.
